Backend: Spring Boot, REST APIs, .NET

Databases: MySQL, MongoDB, Neon

Tools: Git, GitHub, Docker, Render, Vercel

Concepts: OOP, SDLC, Data Structures & Algorithms, API Development

EDUCATION

BSc Computer Science & Information Technology

University of KwaZulu-Natal

CERTIFICATIONS

- AWS Cloud Practitioner Essentials
- Future Interns Full Stack Development Certificate
- Future Interns Letter of Recommendation

EXPERIENCE

Full Stack Web Development Intern | Future Interns

Apr 2026 – May 2026

- Developed and deployed responsive full-stack applications.
- Built REST APIs and integrated SQL databases.
- Worked with Git/GitHub workflows and modern development practices.

KEY PROJECTS

Mini CRM — Full Stack Lead Management System

Java | Spring Boot | React | SQL

Developed a full-stack CRM solution for managing leads and customer interactions. Built RESTful APIs, integrated relational databases, implemented CRUD functionality, and created responsive React interfaces.

Business & Portfolio Websites

React | Tailwind CSS | JavaScript

Designed and deployed responsive business websites with modern UI/UX principles and mobile-first design.

Backend CRUD Systems

Java | Spring Boot | SQL

Developed scalable backend systems featuring authentication, validation, and database integration.
